

# WE ARE HIRING

## CAD DRAFTER (M/F/D) - FULL-TIME

As an innovative IT company based in Hanau/Wolfgang and as a development partner of leading software manufacturers worldwide, we offer unique software solutions for plant and mechanical engineering. Our customers include engineering firms as well as medium-sized companies and global players, which we support with our customized products, such as generative design, digitalization, IoT, AR/KI, PLM/ERP integration, among others.

At UNITEC you will find a professional environment with flat hierarchies. In your field of work, you will always have the opportunity to shape your own daily work routine by contributing your personal strengths and enjoyment. Become an important part of our team with your skills and experience in the field of CAD data management. Be there when we make a significant contribution to Industry 4.0 and the growing digitalization with our forward-looking technologies and ideas.
